SUBJECT: ALC Drew, Arthur E., Letter of Appreciation

TO: 505TCMS

1. Airman Drew arrived this station 27 Dec 65 and departed 3 Jan 66. His performance during this period was outstanding. He assisted the Ground Power Section prepare two EMU-16's for on-line operations. Both generators were new and required considerable work to being on line. Much of his work was done after duty hours.
2. The actual change-over to the EMU-16's required only 30 minutes of down-time. This would not have been possible without Airman Drew.
3. Recommend this Airman be promoted to the NCO rank as soon as possible.
